Key Insights

1. **Technology** is the highest-selling category, generating the most revenue among all product categories.
2. **Office Supplies** and **Furniture** contribute significantly to sales but perform lower than Technology.
3. **Total Sales** reached approximately **\$2.30 Million**, indicating strong overall business performance.
4. **Total Profit** is approximately **\$286K**, showing that the business is profitable despite variations across categories.
5. Users can use the **Region** and **Category** filters to identify high-performing and underperforming segments.
